

Further evidence of our commitment to print and paper, ANC has developed a controlled caliper product that has quickly gained the attention of publishers and printers throughout North America. The most recent capital investment in our manufacturing facility has enabled us to provide customers with a high quality book product across various basis weight, shade and caliper combinations.

BOOK PAPERS

BLUE WHITE

	Basis Weight (25x38)	Basis Weight (gsm)	Brightness (ISO)	Caliper (microns)	Caliper (1/1000)	Caliper (PPI)	Opacity (ISO)
	40	59.2	70	127	5.0	400	93
<i>Dec 2024</i>	40	59.2	70	114	4.5	444	93
	38	56	70	114	4.5	444	93
<i>Dec 2024</i>	35	51.8	70	114	4.5	444	92
	35	51.8	70	102	4.0	500	92
	33	48.8	70	81	3.2	624	92

CREAM

	Basis Weight (25x38)	Basis Weight (gsm)	Brightness (ISO)	Caliper (microns)	Caliper (1/1000)	Caliper (PPI)	Opacity (ISO)
	40	59.2	70	127	5.0	400	93
<i>Dec 2024</i>	40	59.2	70	114	4.5	444	93
	38	56	70	114	4.5	444	93
<i>Dec 2024</i>	35	51.8	70	114	4.5	444	92
	35	51.8	70	102	4.0	500	92

BULKY BOOK

	Basis Weight (25x38)	Basis Weight (gsm)	Brightness (ISO)	Caliper (microns)	Caliper (1/1000)	Caliper (PPI)	Opacity (ISO)
	33	48.8	60	102	4.0	500	93
<i>Dec 2024</i>	33	48.8	60	114	4.5	444	93

ANC is committed to purchasing sawmill residual fiber that are consistent with our PEFC and FSC Chain of Custody standards. Please visit www.albertanewsprint.com for more information and copy of certifications.
