

NEWSPRINT

 ALBERTA'S FIRST AND ONLY PAPER MILL	 FIRST PRODUCTION AUGUST, 1990
 WIDTH OF PAPER MACHINE 8.4 METRES (330 INCHES)	 PAPER MACHINE SPEED 1555 METRES/MIN
 POWER REQUIREMENTS UP TO 125MW	 TONNES PER DAY 747 MT

Since its inception, Alberta Newsprint initiated a strategy to manufacture the highest quality newsprint in North America. Through the tireless efforts of our employees, the right capital investments and the support of our customers, we have done just that.

ANC newsprint is renowned for its unmatched print quality and brightness that bring to life the stories some of the largest publishers in the world are trying to tell. In addition, with our exceptional sheet smoothness, our newsprint can offer the perfect low cost solution for high quality inserts and flyers for both heatset and rotogravure pressrooms.

Combine the above with the best technical support staff in the industry and an underlying commitment to long term thinking, it is clear why ANC is the premier newsprint producer in the marketplace.
